

Module Mounting Locations

The NK-DISP-420 Graphic Main Display board is shown mounted into the NK-7000BB enclosure as part of the adder modules on the inner deadfront chassis. The front door and inner deadfront chassis are all part of the NK-7000LDR, see Figure 1 below. The NK-DISP-420 may be mounted to any space on the inner deadfront chassis using the four #6 screws provided.
