

RS232 Module

NMP-232

The plug-in NMP-232 module will give an Evolution UL NMP fire alarm control panel the ability to interface to RS232 serial equipment and devices.

This is most commonly used to connect the Evolution UL NMP to an RS232 panel printer, or a desktop printer for real time event log printing.

The module also has a 5V aux output that is used to provide power to the panel's internal printer.

Key Features

- Designed to meet UL864 10th Edition requirements.
- Use to interface to RS232 devices.
- 5V aux output (for use with panel printer only).
- Extensive front unit status indications (See table below).
- Quick and easy to install by plugging the RJ45 cable into the module and control panel (cable supplied with unit).
