

Environmental Declaration

Product Type: ST-H-AS

Product weight: 110 grams

Major component materials in the product:

Cover and Body Plastic material – ABS

Populated Printed Circuit board Material – FR4, PCB Leaded HASL finish, Components RoHS Compliant.

Terminals – Terminal “C” Nickel plated Brass, Terminal “D” Stainless Steel.

Fasteners (Screws & Washers etc.) – Bright Zinc plated Steel.

Environmental impact during manufacturing:

The printed circuit board is conformal coated. Environmentally harmful hydrocarbons may be released during the process.

There are no harmful chemicals used elsewhere in manufacturing.

There is no documented information on energy consumption for the manufacturing process.

Environmental impact during operation:

There are no known environmental effects in the handling and use of the product.

Recommended handling of the product at end-of-life:

The product shall be disposed of in accordance with European WEEE 2002/96/EC directive, for Waste Electrical & Electronic Equipment. The product is marked with the “Wheelie Bin” logo to indicate this requirement.

Most recycling facilities have a collection point for “WEEE” waste.

Industrial waste management companies will handle large quantities.
